

*To every loyal American
in whose heart is the love
of country, an ideal
of good citizenship, and
a reverence for the
memory of a great man*

1809
FEBRUARY TWELFTH
1909

AFTER forty years of inaction on the part of the American people, the memory of Abraham Lincoln has at last been honored in a way worthy of this Nation.

On February twelfth, the centenary of Lincoln's birth, President Roosevelt will lay the corner stone of the Memorial Building at the Lincoln Birthplace Farm, at the same time dedicating the Farm to the American people forever, as a Lincoln Memorial National Park.

It is three years since the property was saved from the hands of speculators and turned over to The Lincoln Farm Association, composed of citizens of all the states. The funds for the Memorial Building and development work have been contributed in amounts ranging from twenty-five cents upward by more than 85,000 people. This is as it should be. Lincoln was a man of the whole people and it is fitting that this work of preserving the Birthplace Cabin and Farm should be the reverent tribute of the whole people to his memory—a movement broadly and thoroughly national in character.

Something more than \$100,000 is now available and about \$50,000 more is needed, all of which it is hoped and expected will be contributed within a few months. Every contributor receives a handsome Certificate of Honorary Membership in the Association without liability to further dues or assessments of any kind. Each name is also entered in the Permanent Record to be kept forever in a place of honor at the Park. The amount of the contribution, as stated before, may be anything from twenty-five cents upward—the amount is never made public. It is not the amount but the spirit in which it is given that counts.

Please address contributions and correspondence to the Treasurer. Checks should be made payable to the Association. Prompt acknowledgment will be made and certificate engrossed and forwarded.
